Project Management

Complete Training Guide — All Pages & Modules

Version: 3.0

Date: April 2026

Audience: All System Users

Covers: 17 Pages — Every screen, field, button, and workflow

Table of Contents

SYSTEM OVERVIEW

- Roles & Responsibilities
- Approval Types & Six Critical Gates

PHASE A — SALES & LEADS

- 01** Lead Management /leads Salesperson
- 02** Sales Daily Reports /sales_daily_reports Salesperson ? Manager

PHASE B — PROJECT SETUP

- 03** Project Types /project_types Admin
- 04** Project Clients /project_clients Admin/Staff ? MD
- 04b** Client Approval Page /project_clients/{id}/{doc_type} Managing Director
- 05** Projects List /projects Salesperson / PM ? MD
- 05b** Project Approval Page /projects/{id}/{doc_type} Managing Director

PHASE C — DESIGN & PLANNING

- 06** Site Visits /project_site_visits Inspector ? MD
- 07** BOQ List /project_boqs PM/Engineer ? MD
- 07b** BOQ Detail /project_boq/show/{id} PM — add items, request materials
- 07c** BOQ Templates /project_boq_templates PM — save & apply templates

PHASE D — PROCUREMENT

- 08** Material Requests (from BOQ detail page) Site Staff ? MD

PHASE E — CONSTRUCTION & SITE OPS

- 09** Sites List /projects/sites/sites Admin / PM
- 09b** Site Detail /projects/sites/sites/{id} Supervisors, PM
- 10** Supervisor Assignments /projects/sites/site-supervisor-assignments Admin / HR
- 11** Site Daily Reports List /projects/site-reports/site-daily-reports Supervisor ? Manager
- 11b** Site Daily Report View /projects/site-reports/site-daily-reports/{id} Full detail view

PHASE F — FINANCE

- 12** Project Expenses /project_expenses Site Staff/PM ? PM

SUMMARY

- Full Approval Chain Summary Table

System Roles & Responsibilities

Role	Responsibility in System	Key Modules
Managing Director (MD)	Final approver for all critical documents	Clients, Projects, BOQ, Material Requests, Quotation Comparison, Site Visits
Project Manager (PM)	Creates and manages projects, BOQ, phases, approves expenses	Projects, BOQ, Schedules, Expenses, Site Visits
Salesperson	Creates leads, converts to projects, files sales reports	Leads, Sales Daily Reports, Projects
Designer	Uploads and iterates project designs	Project Designs
Site Supervisor	Assigned to sites, files daily reports, monitors work	Sites, Site Daily Reports, Project Daily Reports
Site Inspector	Conducts formal inspections, records findings	Site Visits
Procurement Officer	Collects quotations, creates comparisons, receives materials	Quotations, Comparison, Inventory
Finance Manager	Approves invoices with digital signature, oversees payments	Billing Documents, Payments
Site Staff	Requests materials, logs expenses, issues from inventory	Material Requests, Expenses, Inventory
Admin	Manages master data, assigns supervisors, full access	Project Types, Sites, Supervisor Assignments

Approval Types & Six Critical Gates

Type	How it Works	Used For
Formal (RingleSoft)	System sends in-app notification. Approver clicks Approve. onApprovalCompleted() fires automatically — updates statuses, quantities, unlocks next stage.	BOQ, Material Requests, Quotation Comparison, Projects, Clients, Site Visits, Site Daily Reports, Sales Daily Reports
Manual	Controller sets approved_by + approved_at directly. No automatic downstream actions.	Project Expenses, Billing Documents
Manual Status	User manually changes a status field. No engine involved.	Project Designs, Construction Phases
None	Operational — no sign-off required. Audit trail maintained.	Project Types, Sites, Supervisor Assignments, Documents, Inventory

Gate	Document	What it Unlocks
Gate 1	Project Client	Client can be assigned to a project
Gate 2	Project	BOQ, Designs, Site Visits, Schedules can begin
Gate 3	BOQ	Material Requests can be raised from BOQ items
Gate 4	Material Request	Supplier Quotations can be collected
Gate 5	Quotation Comparison	Purchase Order — materials can be ordered
Gate 6	Site Visit / Site Daily Report	Formally documented and attached to project

Phase A — Sales & Leads

01 — Lead Management

URL: <http://127.0.0.1:8000/leads> | Detail: </leads/{id}>

Salesperson creates Lead ? adds Follow-Ups ? Updates Status ? Converts to Project

Created By	Salesperson / Sales & Marketing team
Approval	None — status managed by salesperson directly
Auto-Number	LEAD-YYYYMM-001 (generated on save)

List Page Columns

- Lead Number (auto-generated)
- Client Name
- Lead Source (how they found us)
- Service Interested In
- Estimated Value (TZS)
- Salesperson Assigned
- Lead Status (badge: active / converted / inactive)
- Lead Date
- Actions: View, Edit, Delete

Filters Available

- Lead Source (dropdown)
- Service Interested (dropdown)
- Lead Status (dropdown)
- Salesperson (dropdown)
- Date Range (Start Date — End Date)

Form Fields (Create / Edit)

- **Client** — select existing approved client (if new client, system creates one automatically)
- **Lead Source** — how the lead originated (referral, online, walk-in, etc.)
- **Service Interested In** — type of work the client wants
- **Lead Date**
- **Site Location** and **City**
- **Estimated Value** (TZS)
- **Salesperson** — who is responsible
- **Notes**

How to Add a Follow-Up

Performed by: Salesperson

1. Open the lead ? click **Add Follow-Up**
2. Fill: Follow-Up Date, Discussion Details (what was talked about), Outcome, Next Step
3. Follow-up can be marked: **Attended**, **Cancelled**, or **Rescheduled** with remarks
4. All follow-ups appear in the lead timeline and can be referenced in Sales Daily Reports

Convert Lead to Project

Performed by: Salesperson or Project Manager

1. On the lead detail page, click **Create Project** button
2. System creates a linked Project record — lead status changes to **converted**
3. Alternatively, link to an existing project using **Link Project**
4. Project cost estimation can be added to the lead for budget tracking
5. Lead can be unlinked from project using **Unlink Project** if needed

02 — Sales Daily Reports

URL: http://127.0.0.1:8000/sales_daily_reports | View: /sales_daily_report/show/146?document_type_id=14

Salesperson creates Report (DRAFT) ? Submits (PENDING) ? Manager Approves ? APPROVED ?

Created By	Salesperson / Sales team member
Approved By	Sales Manager (formal RingleSoft approval)
Auto-Number	SDR-{id}-{date}

List Page Columns

- Date
- Prepared By (user name)
- Department
- Lead Follow-Ups (count badge)
- Sales Activities (count badge + total TZS)
- Client Concerns (count badge)
- Approvals (status summary)
- Status (badge: DRAFT / PENDING / APPROVED / REJECTED)
- Actions: View, Edit, Delete

Filters

- Start Date / End Date
- Status (DRAFT, PENDING, APPROVED, REJECTED)
- Prepared By (user dropdown)

Report View Page (/sales_daily_report/show/{id})

The full report view has these sections:

Section	What it Contains
Header	Report Date, Prepared By, Department, Status badge
Daily Summary	Free text summary of the day's activities
Lead Follow-Ups	Table: Lead Name, Client, Interaction Type, Discussion, Outcome, Next Step, Date
Sales Activities	Table: Invoice No., Invoice Sum (TZS), Activity Description, Status (paid/partial/not paid), Payment Amount
Client Concerns	Table: Client Name, Issue/Concern, Action Taken, Status
CAC Data	Marketing Cost, Sales Cost, Other Cost, New Customers, Total CAC, Notes

Buttons on Report View

- **Edit** — available only if status is DRAFT or REJECTED
- **Export PDF** — requires Export Sales permission
- **Submit for Approval** — changes status DRAFT ? PENDING
- **Approve / Reject** — available to Manager only

Phase B — Project Setup

03 — Project Types (Master Data)

URL: http://127.0.0.1:8000/project_types

Admin Only — No Approval. Simple master data for categorizing projects. Created once and used every time a project is created.

Created By	System Administrator
Approved By	None — direct CRUD

Table Columns

- Name (e.g. Residential, Commercial, Infrastructure)
- Description
- Total Projects (count of linked projects)
- Actions: Edit, Delete

Form Fields

- **Name** — short category name
- **Description** — what this type covers

04 — Project Clients

URL: http://127.0.0.1:8000/project_clients

Admin/Staff creates Client ? PENDING ? Managing Director Approves ? APPROVED ?

Created By	Admin or any authenticated Staff member
Approved By	Managing Director (1 step — formal RingleSoft)

List Page Columns

- # (index)
- Document Number (auto-generated)
- Name (First Name + Last Name)
- Email
- Phone
- Source (Client Source)
- Projects (count of linked projects)
- Documents (count of attached files)
- Portal (Access enabled / disabled)
- Last Login (when client last logged in to portal)
- Approvals (approval status summary badges)
- Status (badge: PENDING / APPROVED / REJECTED)
- Actions: View (opens approval page), Edit, Delete

Form Fields (Create / Edit)

- **First Name** and **Last Name**
- **Email**
- **Phone Number**
- **Client Source** — how we got this client
- **Physical Address**
- **ID Number** — National ID or passport
- **Portal Access** — enable/disable client login

04b — Client Approval Page

URL: http://127.0.0.1:8000/project_clients/2/9 (format: /project_clients/{client_id}/{document_type_id})

What the MD sees on this page

Opened by: Managing Director when reviewing a client

- First Name and Last Name
- Email address
- Phone Number
- Date the record was created
- Any uploaded identification file
- Approval stages and who has approved/pending

Buttons: [Approve](#) [Reject](#) [Back](#)

Gate 1 Passed: After MD approves, client status = APPROVED and can be linked to projects.

05 — Projects List

URL: <http://127.0.0.1:8000/projects>

Salesperson / PM creates Project ? PENDING ? Managing Director Approves ? APPROVED ?

Created By

Salesperson or Project Manager

Approved By

Managing Director (1 step — formal RingleSoft)

Dashboard Summary Cards (top of page)

- **Total Projects** — count of all projects
- **Active Projects** — pending + in_progress + APPROVED
- **Completed Projects**
- **Delayed Projects** — actual_duration > planned_duration
- **Total Value** — sum of all contract values (TZS Millions)

List Page Columns

- Project ID
- Project Name
- Client Name
- Project Type
- Service Type
- Salesperson
- Project Manager
- Start Date
- Expected End Date
- Status (badge: pending / APPROVED / in_progress / COMPLETED)
- Contract Value (TZS)
- Actions: View (opens approval page), Edit, Delete

Filters Available

- Project Type (dropdown)
- Service Type (dropdown)
- Status (dropdown)
- Start Date — End Date (date range)
- Salesperson (dropdown)
- Project Manager (dropdown)

Form Fields (Create / Edit)

- **Project Name**
- **Client** — must be an APPROVED client
- **Project Type** (from Project Types master data)
- **Service Type**
- **Contract Value** (TZS)
- **Start Date** and **Expected End Date**
- **Project Manager** (assigned user)
- **Salesperson** (assigned user)
- **Description**

05b — Project Approval Page

URL: `http://127.0.0.1:8000/projects/2/10` (format: `/projects/{project_id}/{document_type_id}`)

What the MD sees on this page

Opened by: Managing Director when reviewing a project

- Project Name
- Client Name (First + Last)
- Project Type
- Client Phone Number
- Start Date and Expected End Date
- Contract Value
- Approval stages and current status

Buttons: Approve Reject Back

Gate 2 Passed: After MD approves, project status = APPROVED. BOQ, Site Visits, Designs, and Schedules can now begin.

Phase C — Design & Planning

06 — Site Visits

URL: http://127.0.0.1:8000/project_site_visits

Inspector/Supervisor records Visit ? PENDING ? Managing Director Approves ? APPROVED ?

Created By	Site Inspector or Site Supervisor
Approved By	Managing Director (1 step — formal RingleSoft)

List Page Columns

- # (index)
- Project Name (with Client Name below)
- Location
- Description
- Visit Date
- Approvals (approval badges)
- Status (badge: PENDING / APPROVED / REJECTED)
- Actions: View (opens approval page), Edit, Delete

Filters

- Start Date / End Date (date pickers)
- Project (dropdown)

Form Fields (Create / Edit)

- **Project** — which project this visit is for
- **Visit Date**
- **Location**
- **Description** — purpose of visit
- **Findings** — what was observed on site
- **Recommendations** — what actions should be taken

07 — BOQ List

URL: http://127.0.0.1:8000/project_boqs

PM/Engineer creates BOQ ? adds sections & items ? Submits ? MD Approves ? LOCKED ?

Created By	Project Manager or Engineer
Approved By	Managing Director (1 step — formal RingleSoft)

List Page Columns

- # (index)
- Project (name, linked)
- Version (number)
- Type (Client / Internal)
- Total Amount (TZS) — right-aligned
- Approvals (approval status summary)
- Status (badge: Draft / Submitted / Approved / Rejected)
- Actions: List (view items), Edit, Delete
- **Page Footer:** Total sum of all BOQ amounts

Filters

- Project (dropdown)
- Type (All Types / Client / Internal)
- Status (All Status / Draft / Submitted / Approved)

Buttons at Top

- **New BOQ** — requires Create BOQ permission
- **BOQ Templates** — navigates to /project_boq_templates

07b — BOQ Detail Page (Items)

URL: http://127.0.0.1:8000/project_boq/show/3

This is the most important working page for the BOQ. It shows the full hierarchical structure and allows adding sections, items, and raising material requests.

Page Header Shows

- Project Name
- BOQ Version number
- Type (Client / Internal)
- Approval status badge (if approved — shows LOCKED)

Items Table Columns

- Checkbox (for selecting materials — only visible if Add Material Request permission)
- Item Code (e.g. BOQ-3-001)
- Description (with specification in smaller text)
- Quantity
- Requested (how many have been requested so far)
- Unit (m³, bags, hrs, etc.)
- Unit Price (TZS)
- Total = Qty × Unit Price (TZS)
- Actions: Edit item, Delete item

Hierarchy Display

- Top-level sections shown with blue background, bold text
- Sub-sections shown with lighter blue, indented
- Items indented under their section
- Each section shows its **Subtotal**
- Bottom of page shows **Grand Total**

Pending Material Requests Panel

- Collapsible panel showing all pending requests for this BOQ
- Shows: Request Number, Items list, Priority badge (low/medium/high/urgent), Requester name, Date, Approval status, View button

Action Buttons (top of page)

- **Add Section** — add top-level or sub-section (only if BOQ not approved)
- **Add Item** — add line item to a section (only if BOQ not approved)
- **PDF** — export BOQ as PDF
- **Export CSV** — export BOQ as spreadsheet
- **Import CSV** — bulk-import items (only if BOQ not approved)
- **Templates Dropdown:** Save as Template, Apply Template, View All Templates
- **Pending Requests** button with badge showing count of pending requests

How to Raise a Material Request from BOQ

Creating a Material Request

Performed by: Site Staff

1. Tick checkboxes next to the **material** type items you need (labour/equipment items cannot be requested)
2. A floating "**Request Selected**" button appears at the bottom of the screen
3. Click it — a bulk modal form opens
4. Fill in: **Required Date**, **Priority** (Urgent/High/Medium/Low), **Purpose/Notes**
5. Submit — Material Request created with auto-number MR-YYYY-0001
6. Goes to MD for approval

Gate 3 Passed: After MD approves the BOQ, material requests can be raised. After MD approves a Material Request (Gate 4), supplier quotations can be collected.

07c — BOQ Templates

URL: http://127.0.0.1:8000/project_boq_templates

What are Templates? When a BOQ is well-structured, the PM can save it as a Template. Future projects of the same type can apply that template instead of building the BOQ from scratch — saving significant time.

Templates List Columns

- Template Name (with description)
- Source Project (which project it came from, with version)
- Sections (count)
- Items (count)
- Total (TZS) — approximate value
- Created By (user name)
- Created (date)
- Actions: View, Delete

Buttons

- **New Template** — create blank template
- **Back to BOQs**

To Save a BOQ as Template: From the BOQ Detail page ? Templates Dropdown ? **Save as Template** ? give it a name.

To Apply a Template: From the BOQ Detail page ? Templates Dropdown ? **Apply Template** ? select template ? items are copied in.

Phase E — Construction & Site Operations

09 — Sites List

URL: <http://127.0.0.1:8000/projects/sites/sites>

Admin/PM creates Site ? Supervisor assigned (Module 10) ? Site becomes operational ? Daily Reports filed

Created By	Admin or users with "Add Sites" permission
Approved By	None — direct creation

List Page Columns

- Name (with description below if set)
- Location
- Status (badge: ACTIVE / INACTIVE / COMPLETED)
- Current Supervisor (user name, or "No supervisor assigned" if none)
- Progress (progress bar + percentage from latest daily report)
- Created (date and by whom)
- Actions: View, Edit, Delete (delete only available if no daily reports exist)

Filters

- Search (by name or location, text input)
- Status (All Status / ACTIVE / INACTIVE / COMPLETED)

Form Fields (Create / Edit)

- **Name** — unique site name
- **Location** — physical address or area
- **Description** — what type of work is happening here
- **Start Date** and **Expected End Date**
- **Actual End Date** — set when site work is completed
- **Status** — ACTIVE / INACTIVE / COMPLETED

Deletion Rule: A site cannot be deleted if any Site Daily Reports are linked to it. Change status to COMPLETED instead.

09b — Site Detail Page

URL: <http://127.0.0.1:8000/projects/sites/sites/1>

The individual site page gives a full picture of the site and its recent activity.

Site Information Displayed

Left Column	Right Column
Name	Start Date
Location	Expected End Date
Status (badge)	Actual End Date
Created By	Current Supervisor
Created Date/Time	Progress (progress bar + %)

- Description (shown below the two columns)

Recent Daily Reports Table (on site detail page)

- Date
- Supervisor (who wrote the report)

- Activities (count of work activities listed)
- Progress (percentage)
- Actions: View, Edit

Buttons on Site Detail Page

- **Edit Site** — requires Edit Sites permission
- **New Report** — opens form to add a Site Daily Report for this site (requires Add Site Reports permission)

10 — Supervisor Assignments

URL: <http://127.0.0.1:8000/projects/sites/site-supervisor-assignments>

Admin/HR creates Assignment ? previous assignment auto-deactivated ? One active supervisor per site at a time

Created By Admin or HR, users with "Add Site Assignments" permission

Approved By None — direct assignment

List Page Alert

Unassigned Sites Alert: If any active sites have no supervisor assigned, an alert box appears at the top of the page listing those sites with a quick-assign button.

Table Columns

- Site (name with location below)
- Supervisor (name with email)
- Assigned From (date)
- Assigned To (date, or *Ongoing* if no end date set)
- Assigned By (who made the assignment)
- Duration (days since assigned_from)
- Actions: View Site, Edit, End Assignment

Filters

- Site (dropdown)
- Supervisor (dropdown)

Form Fields (Create / Edit)

- **Site** — which site to assign to
- **Supervisor** — which user (supervisor role) to assign
- **Assigned From** — start date of assignment
- **Assigned To** — end date (leave blank for ongoing)
- **Notes** — reason or special instructions

Auto-Deactivation: When a new assignment is created for a site, the system automatically deactivates (ends) any previously active assignment for that same site. Only one active supervisor per site at any time.

Assignment History: Click *View Site* to see the full assignment history for any site.

11 — Site Daily Reports List

URL: <http://127.0.0.1:8000/projects/site-reports/site-daily-reports>

Supervisor creates Report (DRAFT) ? Submits (PENDING) ? Manager Approves ? APPROVED ?

Created By Site Supervisor assigned to the site

Approved By Manager (formal RingleSoft approval)

Difference from Project Daily Reports: Site Daily Reports are more structured, go through formal approval, are linked to a specific **Site**, and include detailed operational sections (materials, payments, labour). Project Daily Reports are simpler progress logs linked to a Project with no approval.

List Page Columns

- Date
- Site (name with location)
- Supervisor (who wrote it)
- Progress (progress bar + percentage)
- Work Activities (count badge)
- Payments (count badge + total TZS if any)
- Status (badge: DRAFT / PENDING / APPROVED / REJECTED)
- Approval (approval status summary)
- Actions: View, Edit, Export, Share, Delete

Filters

- Site (dropdown)
- Start Date / End Date
- Status (DRAFT / PENDING / APPROVED / REJECTED)
- Supervisor (dropdown)

11b — Site Daily Report Detail View

URL: <http://127.0.0.1:8000/projects/site-reports/site-daily-reports/1>

Report Header

Left	Right
Date (Tarehe)	Progress % (Maendeleo) with progress bar
Site name	Prepared By (user name)
Location	Created date/time
	Status badge

Report Sections

Section	Content
Work Activities (Kazi)	Numbered list of work descriptions for the day, in order
Materials Used (Vifaa)	List: Material name, Quantity + Unit (badge)
Payments (Malipo)	Table: Description, Amount (TZS), Payment To, Date
Labour Needed (Wafanyakazi)	Table: Type, Description, Quantity
Challenges (Changamoto)	Free text — problems encountered
Next Steps (Hatua Zifuatazo)	Free text — what happens next

Buttons on Report View

- **Export** — requires Export Site Reports permission
- **Share WhatsApp** — requires Share Site Reports permission
- **Edit** — only if status is DRAFT or REJECTED
- **Submit / Approve / Reject** — approval actions based on role and status

How to Create a Site Daily Report

Performed by: Site Supervisor

1. Open **Site Daily Reports** ? click **New Report**
2. Fill in: Report Date, Site (which site), Supervisor (who supervised today), Progress Percentage, Next Steps, Challenges
3. Add **Work Activities** — describe each task done today
4. Add **Materials Used** — material name, quantity, unit
5. Add **Payments Made** — description, amount, who was paid
6. Add **Labour Needed** — what type of workers are required
7. Save as **DRAFT**
8. When ready, click **Submit** ? status = PENDING ? Manager approves

12 — Project Expenses (Project Costs)

URL: http://127.0.0.1:8000/project_expenses

Site Staff / PM logs Expense (pending) ? Project Manager Approves (manual) ? APPROVED ?

Created By

Site Staff or Project Manager

Approved By

Project Manager (manual approval — not RingleSoft)

Summary Cards (top of page)

- **Total Records** — count of all expense entries
- **Total Cost Amount (TZS)** — sum of all expenses
- **Projects with Costs** — count of distinct projects

List Page Columns

- Cost ID
- Project ID (document number)
- Project Name
- Cost Category (badge: fuel / tools / transport / etc.)
- Cost Description (truncated)
- Cost Date
- Cost Amount (TZS) — right-aligned
- Remarks
- Actions: Edit, Delete

Filters

- Start Date / End Date
- Project (dropdown)
- Category (dropdown — all cost categories)

Form Fields (Create / Edit)

- **Project** — which project the expense belongs to
- **Cost Category** — fuel, tools, transport, food, miscellaneous, etc.
- **Amount (TZS)**
- **Description** — what was purchased
- **Expense Date**
- **Receipt** — upload photo of receipt
- **Remarks** — additional notes

Approval Process for Expenses

Project Manager manually approves or rejects

1. After submission, expense status = **pending**
2. PM reviews the expense and the receipt photo
3. PM clicks **Approve** — system records approved_by and approved_at
4. Or PM clicks **Reject** — must enter a rejection_reason
5. Approved expenses are counted in the project's total cost summary

Full Approval Chain — Complete Summary

#	Page / Module	URL	Created By	Approved By	Type
01	Leads	/leads	Salesperson	None	None
02	Sales Daily Reports	/sales_daily_reports	Salesperson	Sales Manager	Formal
03	Project Types	/project_types	Admin	None	None
04	Project Clients	/project_clients	Admin / Staff	Managing Director	Formal
05	Projects	/projects	Salesperson / PM	Managing Director	Formal
06	Site Visits	/project_site_visits	Inspector / Supervisor	Managing Director	Formal
07	BOQ	/project_boqs	PM / Engineer	Managing Director	Formal
07b	BOQ Detail & Items	/project_boq/show/{id}	PM / Engineer	n/a (part of BOQ)	n/a
07c	BOQ Templates	/project_boq_templates	PM	None	None

10	Supervisor Assignments	/projects/sites/site-supervisor-assignments	Admin / HR	None	None
11	Site Daily Reports	/projects/site-reports/site-daily-reports	Site Supervisor	Manager	Formal
12	Project Expenses	/project_expenses	Site Staff / PM	Project Manager	Manual

Approval Status Badges Reference

Badge	Meaning	What Can Be Done
DRAFT	Created but not yet submitted	Can edit, can delete, can submit
PENDING	Submitted, awaiting approval	Cannot edit, approver can approve/reject
APPROVED	Formally approved	Locked; unlocks next workflow stage
REJECTED	Rejected by approver	Returns to DRAFT; can edit and resubmit
